

LEVERAGING AMAZON WEB SERVICES FOR GREATER SAVINGS

Welltok designs and develops technology that drives engagement through a combination of social, gaming, and personalization technologies in the healthcare industry.

- ▶ Automated infrastructure creation.
- ▶ Reduced total cost of ownership by 65%.
- ▶ Migrated three core applications and 120 servers from RackSpace into Amazon Web Services.
- ▶ Eliminated manual processes which resulted in errors and mismatch through infrastructure configuration automation.

”

PK migrated us from an on premise-based infrastructure to a cloud-based one, so that we could better leverage automation, cloud capabilities, and cost savings.
